- **Repository:** <https://github.com/FlowForwarding/LINC-Switch>
- **License:** Apache 2.0
- **Status:** Inactive

**Project Description:** LINC is a pure OpenFlow software switch written in Erlang

**Further info:** LINC is a pure OpenFlow software switch written in Erlang. It's implemented in operating system's userspace as an Erlang node. Such approach is not the most efficient one, but it gives a lot of flexibility and allows quick development and testing of new OpenFlow features.
